Camp Philosophy

Each student-athlete will leave the Purdue "Boilermaker Tough" Wrestling Camps with a thorough knowledge of the four areas of athletic development—technical, physical, mental and nutritional.

The camps will focus on developing the technical component. But the staff will also lecture on the mental and nutritional preparation needed to excel in wrestling. Campers will also learn about various workouts the Purdue Wrestling Team implement in daily training.

As clinicians, we are aware of the importance of one-on-one instruction. Our staff is willing to help any athlete after sessions to ensure that each and every wrestler gets the most out of our camp.

Our philosophy centers around high percentage techniques that have worked for national and state champion wrestlers. We at the Purdue "Boilermaker Tough" Wrestling Camps believe that becoming a well rounded wrestler in all positions - neutral, top, and bottom can make you a champion wrestler. We believe our camps not only cover those areas but teach you how to excel in them.

The Purdue "Boilermaker Tough" Wrestling Camp's staff believes people are measured not only by what they do, but by the way they do it. During the camp, each student-athlete will be taught that performing like a champion on the mat requires acting like a champion off the mat.

Do you have what it takes to be?

Boilermaker Tough!

Campers will enjoy working with Purdue University Head Coach, Scott Hinkel, and current Purdue wrestlers and coaches.
